

The City Water Dept. strongly suggests that upon purchasing a lot (or if you already own a lot) in the city or Shadow Mtn. Village that you bring the plumbing up to code. If the galvanized fittings or PVC lines break then you will be responsible to bring them up to code at that time. All work shall be done in accordance with City specifications by a licensed plumber and contractor. All work shall be inspected by City personnel prior to any fill material covering water service assembly. Inside the City inspections will be performed by the City building department inspector or designee, outside the City the inspections will be performed by water department staff. If you have any questions please call the Water Dept. at 824-6340
