

Hello Ray,

Attached is a proof that the vet's liked when you guys stopped in. Below are a few different estimates and a couple different options for you.

.80 aluminum - 6' x 4' - single sided = \$528

.80 aluminum - 6' x 4' - double sided = \$792

labor and hardware to install = \$160

labor to wire brush pole, and repaint with semi-gloss black - \$240

other options - reflective - single sided = \$622

reflective - double sided = \$933

Let me know if you need anything else for your meeting, or if you have any questions.

Thanks Ray,

Dan Seely
