Elyse Ackerman-Casselberry
Northwest Regional Manager
Department of Local Affairs
222 South 6th Street, Room 409
Grand Junction, CO 81501

Dear Elyse:

This letter is to request an extension of the Craig-Moffat County Broadband Study EIAF#9131 Grant. The primary reason for the extension request is to allow us enough time to receive feedback and responses from the service providers for input into the plan. The second week in November, we are issuing a formal Request for Information for the service providers to provide specific input to the plan in regards to key areas that they would like to collaborate on potential builds. With the holidays coming upon us, we would like to provide ample time for them to respond (30-45 days), for NEO's team to evaluate and route specific requests/action plans identified in the RFI (30 days) and to finish up the final report (30 days). Extending this to the end of March will give us ample time to provide a thorough study.

Therefore, we respectfully request that the grant be extended to the end of March 2017.
Thanks you for your consideration.

Sincerely,

Raymond Beck, Mayor
City of Craig
