

# IMPORTANT NOTICE!

Anson Excavating is currently working on replacing a water line for the City of Craig. This process will require the installation of a new isolation valve where the new water main connects to the existing water main. This install will require the water to be shut off.

On Tuesday, August 14, 2018, the City of Craig will temporarily shut the water off from 13th Street North to the bypass. This will affect both sides of North Yampa and the Jenson subdivision area. Please expect the water to be off all day.

Once the water is turned back on, your water may appear cloudy or brown in color. If this occurs, please allow your water to run for 10-15 minutes. Your water should then return to normal. We apologize for any inconvenience this may cause for you and your family and we appreciate your patience while this project is being completed.

If you have any questions, please call 824-6340 or 824-2964

Thank You,

City of Craig Water Department
